MONTPELLIER, FRANCE · CV 2026

Esteban Lafargue.

Technical Designer / Unreal Engine 5

Gameplay & AI Systems · Tools for Designers · Unreal Authorized Instructor ↗

OPEN TO WORK

Seeking a permanent or fixed-term Technical Designer role on Unreal Engine 5

Available now · On-site in Montpellier · Remote, including international

+33 7 81 27 14 29 estebanlafargue34@gmail.com · LinkedIn ↗ · Portfolio ↗ · itch.io ↗

French native · **English** fluent

SOFT SKILLS

Listening & Anticipation
Designer intent and game feel understood, edge cases anticipated.

Collaboration & Modularity
Systems split so every discipline moves forward in parallel.

Clarity & Autonomy
Readable, documented architecture: the team never waits on me.

Contagious Energy
Feedback sought at every step, enthusiasm that drives the team.

TOOLS & AI

Production
Perforce · Git · HacknPlan · Miro · Notion · agile sprints · C++ for core systems.

AI Workflow
Claude & Claude Code to challenge my architectures, with no code generation.

EDUCATION

Unreal Authorized Instructor — 2026
Silver Certification · Epic Games · badge ↗

Bachelor's in Game Design — 2022 – 2025
Brassart Montpellier

PROJECTS

Flying AI 2026 · ▶ video
Space fighter with realistic flight, dodging based on its speed and its target.

VR game · Musée Fabre 2025
Designed and programmed in **10 days**, integration tools for 20+ 3D Artists.

Kläppen 2025 · itch.io ↗
Building, biome-based PCG resources, thousands of trees optimized lag-free.

Project Defender 2024 · itch.io ↗
Fan game made solo in 2 months.

PROFILE

4+ years of daily Unreal Engine practice, at the crossroads of game design and programming. **What I bring to your team:** complete mechanics and AI, built so your Designers can iterate without waiting.

UE5 EXPERTISE

Gameplay	Gameplay Framework · Advanced Blueprints · Interfaces · Dispatchers · Gameplay Tags · UMG · CommonUI · Anim Notifies
Data-Driven	Data Tables · Data Assets · Curve Floats · Instanced UObjects
AI	Behavior Trees · custom Tasks, Services & Decorators · EQS · AI Perception · dynamic NavMesh · State Tree
Practices & Quality	MISRA-inspired defensive coding · debug & visualization tools · technical documentation · prototyping · profiling

EXPERIENCE

Unreal Engine Instructor — Brassart Montpellier [adjunct] — Dec 2025 – Present
- **Lead technical instructor** in Game Design · **60+ students**.
- **Technical supervision of final-year projects** and mid-term jury.
- **Tiered Blueprint workshops**, VR workshops, **production standards**.

Technical Designer (volunteer) — WolfPeak Studio [NDA] — Jan 2026 – Present
- **Overhauled inventory, crafting and UI** into a maintainable architecture.
- **Modular effect system** in C++ / Blueprint: abilities **without code**.
- **Internal training** of the whole team on my tools.

Gameplay Programmer (intern) — WolfPeak Studio [NDA] — Jul 2025 – Jan 2026
- AI for **4 enemy types**: 3 Behavior Trees, **30+ custom BT/EQS nodes**.
- **5 visual debug tools**, tweaks applied **live during sprint reviews**.
- **Dynamic NavMesh** and combat readability (**attacks anticipation**).

Gameplay Programmer (intern) — Mythspawn — Aug 2023
- Set up the **workflows** and **gameplay framework**.
- Android **mobile build**, tested on an emulator.

QA Tester (intern) — Pixel Reef — Jan 2019
- **Bug log** kept daily, **bug reports** sent to the tech team.
